10. I prepared to write the complex program. I did this by splitting the objects mentioned in the program into small parts. First, I examined the objects. Second, I worked out how to represent the objects in the simplest manner necessary for the computer program to traverse their representations. Third, I wrote the computer program. In this way, I prepared to write the complex program by splitting the objects mentioned in the program into small parts.

11. I prepared to like you. I did this by licking the ice-cream wafer. First, I inserted the wafer into the cone. Second, I pulled it out using the serviette. Third, I mashed it with a fork and licked it. In this way, I prepared to like you by licking the ice-cream wafer.

12. I prepared to like myself. I did this by eating the ball of tofu ice cream. First, I found a smaller ball of tofu ice cream. Second, I inserted the disposable fork into the ice cream. Third, I placed the ball into my mouth. In this way, I prepared to like myself by eating the ball of tofu ice cream.

13. I prepared to like everyone in sight. I did this by counting how many ribbons were attached to the maypole. First, I added one to the counter for the first ribbon. Second, I prepared to count the next ribbon. Third, I stopped counting when I had counted all the ribbons. In this way, I prepared to like everyone in sight by counting how many ribbons were attached to the maypole.

14. I prepared to be given a book of knowledge. I did this by when I earned H1. First, I read the first sheet of paper. Second, I prepared to read the next sheet of paper. Third, I stopped reading when I had finished the pile. In this way, I prepared to be given a book of knowledge by when I earned H1.

15. I prepared to be given a job. I did this by making sure my book of knowledge was the same length as my H1. First, I measured the potoroo. Second, I visualised this length. Third, I wrote down this length. In this way, I prepared to be given a job by making sure my book of knowledge was the same length as my H1.

16. I prepared to be protected with training during my job. I did this by connecting with knowledge on a different topic from my 50 As. First, I breasoned out 50 instances of an A in meditation. Second, I asked God for an A on a different topic. Third, I received the training for my job. In this way, I prepared to be protected with training during my job by connecting with knowledge on a different topic from my 50 As.

17. I prepared to observe everyone undergoing training. I did this by observing the king lion telling everyone to do this. First, I looked in the den. Second, I observed the lion cleaning the cub. Third, I watched the cub clean the other cub. In this way, I prepared to observe everyone undergoing training by observing the king lion telling everyone to do this.

18. I prepared to be given a movie the length of my H1 set. I did this by completing an H1 set. First, I gave each crew member an H1. Second, I gave each actor an H1. Third, I gave each prop an H1. In this way, I prepared to be given a movie the length of my H1 set by completing an H1 set.

29. I prepared to hit the ball. I did this by scooping the ball. First, I picked up the ball. Second, I put it in the lacrosse stick. Third, I walked forward. In this way, I prepared to hit the ball by scooping the ball.

30. I prepared to love the Exolec encounter. I did this by correcting myself and becoming a lecturer. First, I corrected a mistake in life. Second, I became a lecturer. Third, I committed myself to research projects. In this way, I prepared to love the Exolec encounter by correcting myself and becoming a lecturer.

31. I prepared to go to heaven. I did this by loving the Western religious leader. First, I walked into a centre. Second, I learned meditation. Third, I practiced meditation every day. In this way, I prepared to go to heaven by loving the Western religious leader.

32. I prepared to make a love heart. I did this by necking with the swan. First, I walked to the swan. Second, I made a love heart with it. Third, I walked back. In this way, I prepared to make a love heart by necking with the swan.

33. I prepared to write a lecture on home safety. I did this by feeling safe at home. First, I locked the door. Second, I locked the window. Third, I invited a friend to my house. In this way, I prepared to write a lecture on home safety by feeling safe at home.

34. I prepared to be productive at work. I did this by feeling safe at work. First, I verified that the walls were strong. Second, I verified that the path outside was safe. Third, I verified that the hall was safe. In this way, I prepared to be productive at work by feeling safe at work.

35. I prepared to be top cat. I did this by switching off the breasonings. First, I switched off the breasonings. Second, I breasoned out the breasonings. Third, I pretended to take off my

top hat, symbolising the magic from the breasonings. In this way, I prepared to be top cat by switching off the breasonings.

36. I prepared to explain surds (square roots which can't be reduced to rational numbers). I did this by helping the child perform the next step. First, I found the factors of the term under the square root symbol. Second, I found the square roots of the squares in the factors. Third, I multiplied and wrote that these were multiplied with the square root of the remaining factors. In this way, I prepared to explain surds (square roots which can't be reduced to rational numbers) by helping the child perform the next step.

37. I prepared to verify that the surd matched the one that the original surd had been simplified to and worked backwards to result in. I did this by checking that the child had understood the next step. First, I worked backwards through the surd example to "think backwards" by first finding factors of the number multiplied by the square root and the factors of the number under the square root symbol. Second, I found the squares of the factors of the number multiplied by the square root. Third, I wrote their multiple under the square root symbol. In this way, I prepared to verify that the surd matched the one that the original surd had been simplified to and worked backwards to result in by checking that the child had understood the next step.

38. I prepared to reach the nth degree as a threshold. I did this by climbing the step. First, I wrote the breasonings. Second, I wrote the arguments. Third, I wrote the books. In this way, I prepared to reach the nth degree as a threshold by climbing the step.

39. I prepared to write an essay by finding it out in a positive-functional way, followed by being given the high quality, developed seen-as version. I did this by writing my essay in a positive-functional way, sentence by sentence. First, I verified that the sentence was positive about the self. Second, I verified that the sentence was positive about the other. Third, I repeated this from another perspective. In this way, I prepared to write an essay by finding it out in a positive-functional way, followed by being given the high quality, developed seen-as version by writing my essay in a positive-functional way, sentence by sentence.

40. I prepared to illustrate the children's storybook. I did this by watching the children earn H1. First, I wrote the collections. Second, I wrote the solutions. Third, I wrote the happiness-solutions. In this way, I prepared to illustrate the children's storybook by watching the children earn H1.

41. I prepared to connect ideas. I did this by observing the adults earn H1. First, I encountered the vorstellung (idea). Second, I experienced the generativity. Third, I meditated on meditation's mechanics (wrote down philosophy's noumena). In this way, I prepared to connect ideas by observing the adults earn H1.

42. I prepared to describe medicine the whole time in meditation. I did this by writing the Medicine H1. First, I defined breathsonings. Second, I took apart the nuts and bolts. Third, I placed waste in a quantum box. In this way, I prepared to describe medicine the whole time in meditation by writing the Medicine H1.

Heads of State

1. I prepared to say that there was an algorithm of the Gods. I did this by stating that the head of state gave knowledge to the meditators. First, there was a library of books written by the head of state. Second, the meditators wrote on the ideas of the head of state. Third, the meditator wrote their thoughts.

2. I prepared to help the mantra meditators with medicine. I did this by stating that the mantra meditators helped with pedagogy. First, there were senior meditators. Second, the new meditators gave ideas. Third, the older meditators wrote down their ideas.

3. I prepared to help the meditator write an algorithm writer. I did this by transforming meditators' thoughts into productions. First, I wrote down the thought. Second, I entered an algorithm using the algorithm writer. Third, I produced 50 As.

4. History prepared to record the constant achievement of the pinnacle over time. I did this by stating that heads of state coordinated accreditation. First, the head of state received the pinnacle. Second, he gave it to the school. Third, the school applied it to the item.

5. I prepared to establish meditation groups in society. I did this by stating that heads of state protected meditation. First, I wrote about pranayama. Second, I wrote about soma. Third, I wrote about the utterances.

6. I prepared to research the medical results. I did this by stating that the head of state protected medicine. First, I wrote about sanity. Second, I wrote about happiness. Third, I wrote about comfort.

7. I prepared to write about pedagogical indicators. I did this by stating that the head of state protected pedagogy. First, I wrote about breasonings details. Second, I wrote about creating pedagogues. Third, I wrote about writing my breasonings.

8. I prepared to help the state with meditation and the future. I did this by starting the university. First, I gauged the interest in the university. Second, I researched the costs. Third, I found stakeholders and writers.

9. I prepared to receive input from the mind reader. I did this by training school and university students in pedagogy, meditation and medicine. First, I helped synthesise students' direction. Second, I listened to high-quality conclusions. Third, I wrote 50 As for at least one word thought or said with the computer science algorithm writer.

10. I prepared to articulate to University. I did this by guiding to the strong lines. First, I wrote the 50 As about the idea from a professor's perspective. Second, I wrote the 50 As about the idea from the perspective of a head of state. Third, I wrote the 50 As about the idea from God's perspective.

Text 2 Edit

1. I prepared to turn the train around on the circular track. I did this by turning the lollipop around. First, I put the lollipop in my mouth. Second, I rotated the stick of the lollipop. Third, I noticed this caused the lollipop's head to rotate. In this way, I prepared to turn the train around on the circular track by turning the lollipop around.

2. I prepared to test the boy had a bag of nuts. I did this by feeling the bow tie. First, I felt the knot in the middle. Second, I felt the left side of the bow tie. Third, I felt the right side of the bow tie. In this way, I prepared to test the boy had a bag of nuts by feeling the bow tie.

3. I prepared to stop playing the “World” board game. I did this by identifying that the button had reached the goal. First, I found the button. Second, I tested which region it was on. Third, I tested that the name of the region was “Happiness”. In this way, I prepared to stop playing the “World” board game by identifying that the button had reached the goal.

4. The head of state prepared to help think of an algorithm with me. She did this by finding the loop in the algorithm. First, she wrote down the name of the Prolog predicate. Second, she wrote down the name of the predicate called by the predicate. Third, she identified that the two predicate names were the same, showing that there was a loop, in other words a recursive structure in the algorithm. In this way, the head of state prepared to help think of an algorithm with me by finding the loop in the algorithm.

5. I prepared to wash the t-shirt. I did this by feeling the tap. First, I knelt down. Second, I touched the bottom of the tap. Third, I felt the top of the top. In this way, I prepared to wash the t-shirt by feeling the tap.

6. Lucian prepared to teach the students. He did this by setting up the monastic-led school. First, he chose monastics to lead the school. Second, he wrote the lessons to be taught. Third, he taught the monastics how to teach the lessons. In this way, Lucian prepared to teach the students by setting up the monastic-led school.

7. I prepared to say hello to my friend in a few days. I did this by connecting the continents together by train. First, I selected the first continent. Second, I selected the second continent. Third, I connected the two continents together by train, as well as the rest of the continents. In this way, I prepared to say hello to my friend in a few days by connecting the continents together by train.

8. I prepared to go to school. I did this by connecting the universe together using the space pathways. First, I chose the first point in space. Second, I chose the second point in space. Third, I connected these two points together. In this way, I prepared to go to school by connecting the universe together using the space pathways.

9. I prepared to walk around the schoolyard. I did this by connecting the school buildings together with pathways. First, I looked at the first building. Second, I looked in which direction the next building was. Third, I walked in that direction. In this way, I prepared to walk around the schoolyard by connecting the school buildings together with pathways.

10. The patient prepared to lie down. He did this after being taken off medication because it caused muscle stiffness. First, he read the medication’s side effects. Second, he looked at what to do instead. Third, he did that instead. In this way, the patient prepared to lie down after being taken off medication because it caused muscle stiffness.

11. The actor prepared to give the proclamation. He did this by sitting on the throne. First, he unravelled his robe. Second, he undid the cord. Third, he sat up straight on the throne. In this way, the actor prepared to give the proclamation by sitting on the throne.

13. I prepared for our pet dog to ask for food. I did this by watching her notice she was at home. First, she looked at the furniture. Second, she noticed it was in the same shape. Third, she realised she was at home. In this way, I prepared for our pet dog to ask for food by watching her notice she was at home.

14. I prepared to have a hunt for interesting ideas about my friends. I did this by loving my friends by meeting one per week. First, I read the next friend's name on the list and rang him or her. Second, I prepared to read the next name in the next week. Third, I repeated this until the list was complete, then I returned to the start of the list. In this way, I prepared to have a hunt for interesting ideas about my friends by loving my friends by meeting one per week.

15. I prepared to neaten the blanket in the blanket cover. I did this by putting my finger into a hole. First, I chose a large enough hole to put my finger into. Second, I straightened my finger and pointed it to the hole. Third, I placed my finger in the hole. In this way, I prepared to neaten the blanket in the blanket cover by putting my finger into a hole.

16. I prepared to interface with the latest research. I did this by connecting arguments on the Internet with similar arguments. First, I selected the first argument, in other words, phrase. Second, I selected the second argument. Third, I found a right, in, on or out of relationship between the arguments. In this way, I prepared to interface with the latest research by connecting arguments on the Internet with similar arguments.

17. I prepared to have a bonanza by having an alien's brain washed by showing him a blank screen for five minutes. I did this by ticking the box that an alien had been found. First, I selected a country. Second, I read the name of the alien. Third, I tested that the name of the alien was not on the list of inhabitants from the country. In this way, I prepared to have a bonanza by having an alien's brain washed by showing him a blank screen for five minutes by ticking the box that an alien had been found.

18. I prepared to wear the vestments. I did this by licking two lollies at once. First, I licked the first lolly. Second, I prepared to lick the second lolly. Third, I repeated this until I had licked each lolly. In this way, I prepared to wear the vestments by licking two lollies at once.

19. I prepared to teach the student meditation. I did this by asking for 80 lucian mantras and 80 green sutras to each be repeated for 10 days. First, I repeated 80 lucian mantras. Second, I repeated 80 green sutras. Third, I repeated these using 10 buttons. In this way, I prepared to teach the student meditation by asking for 80 lucian mantras and 80 green sutras to each be repeated for 10 days.

20. I prepared to serve the next two customers by smiling at the second one after smiling at the first one. I did this by licking around the apple. First, I touched the apple with the tip of my tongue. Second, I moved my tongue around the apple. Third, I stopped moving my tongue when I had reached the opposite point of the apple. In this way, I prepared to serve the next two customers by smiling at the second one after smiling at the first one by licking around the apple.

21. The head of state's dog prepared to be taken care of by coming to her. He did this by licking inside the bonus fruit bowl on command. First, he touched the inside of the fruit bowl with his tongue. Second, he started licking around the edge of the fruit bowl. Third, he stopped when he had reached half-way. In this way, the head of state's dog prepared to be taken care of by coming to her by licking inside the bonus fruit bowl on command.

23. I prepared to walk on the mat. I did this by replacing the west exit's mat when the old one was 50% full. First, I tested that the box was 50% full of spheres. Second, I removed it. Third, I replaced it with another mat. In this way, I prepared to walk on the mat by replacing the west exit's mat when the old one was 50% full.

24. The chemist prepared to make an alpha-radioactive time machine. He did this by making a time machine that went forward as alpha-radiation was emitted. First, he removed a square of paper alpha "radiation" from the box on the desk. Second, he prepared to remove the next square of paper alpha "radiation" from the box. Third, he stopped when all the "radiation" had been emitted. In this way, the chemist prepared to make an alpha-radioactive time machine by making a time machine that went forward as alpha-radiation was emitted.

25. The police watcher prepared to go home. He did this when he realised there was nothing to watch. First, he looked where the subject usually stood. Second, he realised she had gone home. Third, he realised she was not doing anything in that place. In this way, the police watcher prepared to go home when he realised there was nothing to watch.

28. I prepared to go to sleep. I did this by thinking of an A (a perfect thought) rather than the first ten mistakes when resting. First, I thought of the first breasoning for this (in other words, thinking of an algorithm involving the object relating to movement along a pathway in the same way that a philosophy professor would pull model eyes from a blue cloth in the same way that one would pull a swab out of a test tube to clean it, then breasoning out, or thinking of the object's x, y and z dimensions). Second, I prepared to think of the next breasoning. Third, I repeated this until ten breasonings had been thought of. In this way, I prepared to go to sleep by thinking of an A.

29. The dancer prepared to attend the ball. She did this by making a coral necklace. First, she selected a piece of tubular coral and threaded it. Second, she prepared to select the next piece of coral. Third, she continued until enough pieces of coral had been threaded so that

the necklace's length was covered in coral and the necklace was flexible. In this way, the dancer prepared to attend the ball by making a coral necklace.

30. I prepared to make the necklace. I did this by polishing the pearl. First, I held the pearl to show the right latitude. Second, I held the pearl to show the right longitude. Third, I polished that region of the pearl, following which I repeated this for the next longitude and after this, the next latitude. In this way, I prepared to make the necklace by polishing the pearl.

31. I prepared to be a religious leader, surrounded with flowers. I did this by cutting a living flower from a plant. First, I selected a lotus flower. Second, I cut it from the plant. 14. I prepared to wait until sunset. I did this by staying at the laboratory for as long as possible. First, I wrote a list of items to do during the day. Second, I wrote the time each item would take. Third, I completed each item in the necessary item. In this way, I prepared to wait until sunset by staying at the laboratory for as long as possible.

15. I prepared to write a computer program with a minimalist main predicate, in other words with code in the main predicate moved to other predicates. I did this by cleaning my neck. First, I wetted a sponge. Second, I applied the sponge to my neck. Third, I soaked up any water on my neck. In this way, I prepared to write a computer program with a minimalist main predicate by cleaning my neck.

16. I prepared to maintain my self-confidence. I did this by smiling at the person facing me. First, I looked at the left eye of the person facing me. Second, I looked at the right eye of the person facing me. Third, I smiled at her. In this way, I prepared to maintain my self-confidence by smiling at the person facing me.

17. I prepared to love each idea. I did this by loving, in other words repeating 80 lucian mantras. First, I repeated five lucian mantras. Second, I repeated this twice. Third, I repeated this eight times. In this way, I prepared to love each idea by loving, in other words repeating 80 lucian mantras.

18. Einstein prepared to test what was built into an atom. He did this by eating a bagel at each eatery. First, he went to the first eatery. Second, he ate a bagel there. Third, he repeated this until he had visited each eatery. In this way, Einstein prepared to test what was built into an atom by eating a bagel at each eatery.

19. I prepared to become a professor. I did this by concentrating well at University. First, I enrolled at University. Second, I attended class there. Third, I finished each degree one at a time (note: lecturers are trained to fail students who are enrolled in two separately enrolled degrees at a time). In this way, I prepared to become a professor by concentrating well at University.

20. I prepared to wear the heat shield. I did this by making the pocket out of fabric by attaching it to the hole. First, I cut out two pocket halves from the fabric. Second, I sewed

their bottoms and sides together. Third, I sewed the tops of the two sides of the pocket to the two sides of the hole for the pocket. In this way, I prepared to wear the heat shield by making the pocket out of fabric by attaching it to the hole.

21. I prepared to say a prayer to have cloudy mucous in meditation. I did this by eating the brazil nut. First, I bit the brazil nut. Second, I chewed it. Third, I looked at the chewed nut. In this way, I prepared to say a prayer to have cloudy mucous in meditation by eating the brazil nut.

22. I visited people's houses with a security guard to teach meditation. I did this by generously giving my time to the church. First, I walked to the first house. Second, I worked out how to go to the next house. Third, I continued doing this until I had visited each house in the list. In this way, I visited people's houses with a security guard to teach meditation by generously giving my time to the church.

23. I prepared to disseminate the atom. I did this by swallowing the cream whole. First, I stuck a chopstick through the cream in my mouth before swallowing it. Second, I stuck a skewer through the cream in my mouth before swallowing it. Third, I stuck a small skewer through the cream in my mouth before swallowing it. In this way, I prepared to disseminate the atom by swallowing the cream whole.

24. I prepared to disseminate the electron. I did this by cleaning the shoe top to bottom and front to back. First, I cleaned from left to right of the front top of the shoe. Second, I cleaned from front to back of the top of the shoe. Third, I cleaned from the top to bottom of the shoe. In this way, I prepared to disseminate the electron by cleaning the shoe top to bottom and front to back.

25. I prepared to fire particles through the subatomic bond. I did this by cleaning the utensil, in other words, the fork. First, I cleaned the fork in the water. Second, I cleaned the fork with an absorbent dish cloth. Third, I dried the fork with a dry dish cloth. In this way, I prepared to fire particles through the subatomic bond by cleaning the utensil.

26. I prepared to be safe at the pop concert. I did this by reading at home. First, I selected the first book on my pile of books. Second, I opened the book at the first page. Third, I read each page until the end of the book. In this way, I prepared to be safe at the pop concert by reading at home.

27. I prepared to write on input and output into and out of a didgeridoo respectively. I did this by deciding who would write on each half of a text in a pair of people. First, I scanned each half of the text. Second, I delegated writing on the first half of the text to the person who preferred it. Third, I delegated writing on the second half of the text to the person who preferred it. In this way, I prepared to write on input and output into and out of a didgeridoo respectively by deciding who would write on each half of a text in a pair of people.

28. I prepared to clear away parts of the nucleus from being in the system being modelled. I did this by wetting a cloth and cleaning the child's face. First, I wet the cloth under the tap. Second, I touched the child's face with the cloth. Third, I cleaned the child's face with the cloth. In this way, I prepared to clear away parts of the nucleus from being in the system being modelled by wetting a cloth and cleaning the child's face.

29. I prepared to verify the colour of pigment subatomic particles in the gas. I did this by telling my friend where there was a good deal. First, I looked at the object. Second, I looked at the object's price tag. Third, I told my friend about the good deal, in other words, low price for the object. In this way, I prepared to verify the colour of pigment subatomic particles in the gas by telling my friend where there was a good deal.

30. I prepared to verify that I knew the quantum electron's properties. I did this by accepting a ticket from my friend when I was available. First, I checked when I was free. Second, I accepted the ticket for this time. Third, I attended the concert at this time.

31. I prepared to give my time to the radiation experiment using personal protective equipment. I did this by giving my student the A grade for an assignment. First, I read the assignment. Second, I wrote the number of correct responses down. Third, I wrote the student had earned the A grade for the assignment because the number of correct responses were 80% of the questions in the assignment. In this way, I prepared to give my time to the radiation experiment by giving my student the A grade for an assignment.

32. I prepared to examine the molecule to test the hypothesised effect of subatomic particles on its properties, in the same way that I would ask the teacher different questions about the test. I did this by revising for the test. First, I read the question. Second, I read the answer. Third, I tested I understood the answer. In this way, I prepared to examine the molecule to test the hypothesised effect of subatomic particles on its properties, in the same way that I would ask the teacher different questions about the test by revising for the test. First, I read the question.

33. I prepared to eat the vegan delight. I did this by licking the three-fruit ice cream. First, I licked the strawberry ice cream. Second, I licked the peach ice cream. Third, I licked the mango ice cream. In this way, I prepared to eat the vegan delight by licking the three-fruit ice cream.

34. I, the philosopher, prepared to be there. I did this by writing. First, I was in the centre with you. Second, I wrote about it with you. Third, I liked you. In this way, I, the philosopher, prepared to be there by writing.

35. I prepared to let my would-be daughter and her husband keep the dowry. I did this by giving the dowry. First, I found my daughter. Second, I gave her half the dowry. Third, I gave her husband half the dowry. In this way, I prepared to let my would-be daughter and her husband keep the dowry by giving the dowry.

36. I prepared to approve of my daughter's quality of life. I did this by observing the parent approve of the partner. First, I observed the parent test the partner's job. Second, I observed the parent test the partner's outward manner. Third, I observed the parent test the partner's physical state. In this way, I prepared to approve of my daughter's quality of life by observing the parent approve of the partner.

37. I prepared to act on my status. I did this by verifying my status. First, I checked the train's current station. Second, I verified whether it was my destination. Third, I disembarked if it was. In this way, I prepared to act on my status by verifying my status.

38. I prepared to verify that you would be at the place at the same time as me. I did this by verifying your status against my status. First, I saw you. Second, I decided to walk to you. Third, I met you. In this way, I prepared to verify that you would be at the place at the same time as me by verifying your status against my status.

39. I prepared to lead the good life. I did this by preventing problems on the farm. First, I wrote the question. Second, I wrote the answer. Third, I replied with this answer when this question arose. In this way, I prepared to lead the good life by preventing problems on the farm.

40. I prepared to take notes. I did this by finding the lost leash. First, I looked on the table. Second, I found it. Third, I went for a walk. In this way, I prepared to take notes by finding the lost leash.

41. I prepared to write the breasoning's algorithm. I did this by observing the student agreeing with the breasonings. First, I observed the student agree with the breasoning. Second, I observed the student agree with the breasoning's algorithm's first breasoning. Third, I observed the student agree with the breasoning's algorithm's second breasoning. In this way, I prepared to write the breasoning's algorithm by observing the student agreeing with the breasonings.

42. I prepared to endorse fairness. I did this by agreeing with positivity in relationships. First, I found the relationship. Second, I determined that it was positive. Third, I agreed with it. In this way, I prepared to endorse fairness by agreeing with positivity in relationships.

Purusha

1. I prepared to adorn myself with the lotus flower. I did this by picking the lotus flower. First, I walked to the pond. Second, I positioned the secateurs below the lotus flower. Third, I cut it from the plant. In this way, I prepared to adorn myself with it by picking it.

2. I prepared to like you. I did this by offering my hand. First, I lifted my hand. Second, I held your hand. Third, I lifted your hand. In this way, I prepared to like you by offering my hand.

3. I prepared to like myself. I did this by eating the coconut from its shell. First, I became a monastic. Second, I created the church's spiritual life with God. Third, I brought world peace to the masses. In this way, I prepared to like myself by eating the coconut from its shell.

4. I prepared to love everyone. I did this by cutting the banana. First, I cut the banana off the tree. Second, I cut its skin off. Third, I cut it in half. In this way, I prepared to love everyone by cutting the banana.

5. I prepared to love you to everyone. I did this by writing the manifesto about a lock. First, I attended a theological school. Second, I used my theological training to guide people. Third, I taught their friends as well.

6. I prepared to love myself to everything. I did this by watering the medicinal plant instead of relying on luck. First, I filled the watering cylinder with water. Second, I positioned it over the plant's leaves. Third, I watered it's leaves. In this way, I prepared to love myself to everything by watering the medicinal plant instead of relying on luck.
7. I prepared to say my conclusion. I did this by hitting the drum. First, I held the stick. Second, I positioned it above the drum. Third, I struck the drum with the stick. In this way, I prepared to say my conclusion by hitting the drum.
8. I prepared to love you to me. I did this by accepting a donation. First, I placed the box in the hall. Second, I pointed it out to the meditator. Third, the meditator placed the donation in the box. In this way, I prepared to love you to me by accepting a donation.
9. I prepared to love you to you. I did this by writing a sacred text. First, I wrote a line. Second, I listened to my mother repeat it. Third, I held my mother to her point. In this way, I prepared to love you to you by writing a sacred text.
10. I prepared to love everyone to you. I did this by drinking the holy water. First, I blessed the water. Second, I filled each cup with water. Third, I drank the water in my cup. In this way, I prepared to love everyone to you by drinking the holy water.
11. I prepared to love everyone to me. I did this by jogging on the pavement. First, I placed running clothes and shoes. Second, I walked onto the pavement. Third, I ran on the pavement. In this way, I prepared to love everyone to me by jogging on the pavement.
12. I prepared to love everyone to you too. I did this by calculating how long it took to eat the store of apples. First, I set the sand timer at 0. Second, I timed how long it took to eat the apple. Third, I multiplied this time by the number of apples. In this way, I prepared to love everyone to you too by calculating how long it took to eat the store of apples.
13. I prepared to love everyone to me too. I did this by eating the guava. First, I halved the guava. Second, I scooped a spoonful of guava and ate it. Third, I repeated the second step until I had finished eating the guava. In this way, I prepared to love everyone to me too by eating the guava.
14. I prepared to love everyone to everyone. I did this by eating the pears with everyone. First, I cooked the pears. Second, I placed them into bowls. Third, I ate my pear with everyone. In this way, I prepared to love everyone to everyone by eating the pears with everyone.
15. I prepared to encourage vegans. I did this by loving everyone to sausage eaters. First, I decided to love. Second, I loved everyone. Third, I loved everyone to sausage eaters. In this way, I prepared to encourage vegans by loving everyone to sausage eaters.
16. I prepared to become the new God (leader). I did this by loving God (the leader). First, I found God (the leader). Second, I loved her. Third, I followed her. In this way, I prepared to become the new leader by loving God (the leader).

17. I prepared to remain in heaven (bliss). I did this by loving my partner. First, I found my partner. Second, I loved my partner. Third, I held on to my partner. In this way, I prepared to remain in heaven (bliss) by loving my partner.

18. I prepared to state that W.S. stood for white (a movie key term) and sorry (a music key term). I did this by loving my family member. First, I found Methuselah. Second, I found him on high. Third, I moved on. In this way, I prepared to state that W.S. stood for white (a movie key term) and sorry (a music key term) by loving my family member.

19. I prepared to think of the land of the magpie. I did this by drawing the magpie. First, I examined the magpie. Second, I drew her head. Third, I drew her body. In this way, I prepared to think of the land of the magpie by drawing the magpie.

20. I prepared to act on the day (in the shoot). I did this by acting on the day. First, I found the date and time of the call. Second, I found the place of the call. Third, I acted on the day. In this way, I prepared to act on the day (in the shoot) by acting on the day.

21. I prepared to eat the scone with the Idiot. I did this by stating that I am purusha (universal man). First, I liked you. Second, I liked the cosmos. Third, I became a universal man. In this way, I prepared to eat the scone with the Idiot by stating that I am purusha (universal man).

22. I prepared to like everything about the other purushas. I did this by liking them. First, I walked into the dormitory. Second, I introduced myself to the three purushas. Third, I held a conversation with them. In this way, I prepared to like everything about the other purushas by liking them.

23. I prepared to go back to black. I did this by being given a black lamb. First, I went to market. Second, I bought a black lamb. Third, I cuddled it at home. In this way, I prepared to go back to black by being given a black lamb.

24. I prepared to earn the degree. I did this by earning the required As. First, I asked Plato. Second, I asked the Heads of State. Third, I asked the religious leader (the man). In this way, I prepared to earn the degree by earning the required As.

25. I prepared to write the aphor symbol, or section symbol. I did this by playing with the cricket. First, I played with the cricket. Second I let him hop out of my hand. Second, I noticed him with his friend. In this way, I prepared to write the aphor symbol, or section symbol by playing with the cricket.

26. I prepared to taste test the new food. I did this by licking the taste tab. First, I found the blueberry taste tab. Second, I held it to my tongue. Third, I licked it. In this way, I prepared to taste test the new food by licking the taste tab.

27. I prepared to make the card gazebo. I did this by inserting the tab. First, I detached the card gazebo along the perforated lines. Second, I folded it along the creases. Third, I inserted the tab. In this way, I prepared to make the card gazebo by inserting the tab.

28. I prepared to synthesise Hegel's idea with his main idea. I did this by placing my thesis online. First, I breasoned out 50 As. Second, I applied to an online journal. Third, I placed

my thesis online. In this way, I prepared to synthesise Hegel's idea with his main idea by placing my thesis online.

29. I prepared to fill my presentation with the ideas of Heidegger and Laozi. I did this by placing my presentation online. First, I wrote my presentation. Second, I placed it online. Third, I viewed it. In this way, I prepared to fill my presentation with the ideas of Heidegger and Laozi by placing my presentation online.

30. I prepared to breason out the gems. I did this by writing the required number of breasonings. First, I breasoned out quartz. Second, I breasoned out ruby. Third, I breasoned out lapis lazuli. In this way, I prepared to breason out the gems by writing the required number of breasonings.

31. I prepared to examine my existence with light. I did this by writing that the Lucian mantra should be repeated today. First, I lit up my mind. Second, I lit up my body. Third, I lit up my world. In this way, I prepared to examine inner light by writing that the Lucian mantra should be repeated today.

32. I prepared to bring beings to life. I did this by practicing the Green sutra. First, I examined the void. Second, I examined meditation. Third, I examined pedagogy. In this way, I prepared to bring beings to life by practicing the Green sutra.

Upasana Sutra

1. I prepared to love the historians. I did this by kissing you. First, I put lipstick on my upper lip. Second, I put lipstick on my lower lip. Third, I gave you a kiss. In this way, I prepared to love the historians by kissing you.

2. I prepared to love being in you. I did this by licking a heart-shaped ice-cream. First, I licked from the bottom point of the heart to the top-left hand point of the heart ice-cream. Second, I licked from the bottom point of the heart to the top-right hand point of the heart ice-cream. Third, I finished off the ice-cream.

3. I prepared to be happy for the moment. I did this by eating the edible camouflage tape. First, I unwound and ate 0.01 metres of the edible camouflage tape. Second, I prepared to repeat unwinding and eating 0.01 metres of the edible camouflage tape. Third, I repeated this until I had eaten 0.05 metres of the edible camouflage tape. In this way, I prepared to be happy for the moment by eating the edible camouflage tape.

4. I prepared to love delights. I did this by eating the Jelly-Emeritus Professor. First, I ate the left half of the Jelly-Emeritus Professor. Second, I ate the right half of the Jelly-Emeritus Professor. Third, I ate the head of the Jelly-Emeritus Professor. In this way, I prepared to love delights by eating the Jelly-Emeritus Professor.

5. I prepared to give something to somebody by boarding a vehicle. I did this by eating the cream in an éclair. First, I knifed the join on the edge of the éclair. Second, I opened up the éclair. Third, I snuffed up the cream in the éclair. In this way, I prepared to give something to somebody by boarding a vehicle by eating the cream in an éclair.

6. I prepared to open the wooden box. I did this by squelching the jelly out of the jelly mould. ***Br? 9/26/13 First, I poured the mixed the jelly crystals with the water. Second, I poured the mixture into the mould and let it set overnight. Third, I ran the fork over the jelly to squelch it out of the jelly mould. In this way, I prepared to open the wooden box by squelching the jelly out of the jelly mould.

7. I prepared to go for a swim. I did this by pumping up the tyre. First, I inserted the air pipe into the tyre. Second, I started pumping the tyre up. Third, I stopped pumping up the tyre when it was fully pumped up. In this way, I prepared to go for a swim by pumping up the tyre.

8. I prepared to test that the zygote's body grew from its head. I did this by fitting the tyre to the axle. First, I placed the first clamp on the axle. Second, I placed the tyre on the axle. Third, I placed the second clamp on the axle. In this way, I prepared to test that the zygote's body grew from its head by fitting the tyre to the axle.

9. I prepared to create a lobster from a metal frame. I did this by turning the screw. First, I inserted the screwdriver into the screw. Second, I started turning the screw. Third, I stopped turning the screw when it had turned as far as it could turn. In this way, I prepared to create a lobster from a metal frame by turning the screw.

10. I prepared to make an orange icy pole. I did this by squeezing the orange into the mould. First, I cut the orange in half. Second, I positioned the orange above the icy pole mould. Third, I squeezed it into it. In this way, I prepared to make an orange icy pole by squeezing the orange into the mould.

11. I prepared to verify what I wanted to verify the item was the same as. I did this by verifying one side of the table. First, I looked at the eukaryote. Second, I realised it was a eukarya member. Third, I checked for it in the left hand column. In this way, I prepared to verify what I wanted to verify the item was the same as by checking one side of the table.

12. I prepared to verify the item that I wanted to verify was the same as another item. I did this by verifying the other side of the table. First, I looked for the table cell. Second, I looked for the column heading for this cell. Third, I checked whether the contents of the cell were the same as the content of the cell I was checking. In this way, I prepared to verify the item that I wanted to verify was the same as another item by verifying the other side of the table.

13. I prepared to find the phylogenetic tree's branch's label that I wanted. I did this by verifying that it matched up with what I wanted. First, I verified the real smell of orange juice. Second, I tested the necessary smell of orange juice. Third, I verified that they matched. In this way, I prepared to find the phylogenetic tree's branch's label that I wanted by verifying that it matched up with what I wanted.

14. I prepared to load the custom-built vehicle rack with the suit. I did this by verifying that the tuxedos were neat. First, I neatened the labels. Second, I neatened the lapels. Third, I neatened the artificial carnations. In this way, I prepared to load the custom-built vehicle rack with the suit by verifying that the tuxedos were neat.

15. I prepared to investigate the Loop of Henle metaphor. I did this by giving out the tulip. First, I fingered the side of the tulip. Second, I moved my finger down the tulip. Third, I

moved my finger up the other side of the tulip. In this way, I prepared to investigate the Loop of Henle metaphor by giving out the tulip.

16. I prepared to squelch the pink juice into the mould. I did this by running the race. First, I started using energy. Second, I prepared to use the next amount of energy. Third, I finished using energy when I had finished running the race. In this way, I prepared to squelch the pink juice into the mould by running the race.

17. I prepared to spoon the jelly delightfully. I did this by putting the orange jelly mixture in the refrigerator. First, I opened the door wide. Second, I popped the mixture in the door. Third, I made sure it wouldn't fall out. In this way, I prepared to spoon the jelly delightfully by putting the orange jelly mixture in the refrigerator.

18. I prepared to say I wanted you. I did this by reading the answer. First, I opened up the book of ideas about you. Second, I found the right page. Third, I read that I want you. In this way, I prepared to say I wanted you by reading the answer.

19. I prepared to want to communicate with you. I did this by finding the envelope. First, I opened the writing desk. Second, I found the correct pigeonhole. Third, I took out the thick envelope. In this way, I prepared to want to communicate with you by finding the envelope.

20. I prepared to want your reply. I did this by listening to the answer. First, I looked at you. Second, I waited for your reply. Third, I was interested in your reply as you gave it. In this way, I prepared to want your reply by listening to the answer.

21. I prepared to earn genius marks. I did this by spelling out the mathematics equation. First, I spelt out the equation. Second, I instructed the computer how to do it. Third, I instructed the computer to run the program. In this way, I prepared to earn genius marks by spelling out the mathematics equation.

22. I prepared to write down what was necessary to work out the equation. I did this by substituting the correct parts for the variables in the equation. First, I substituted the value corresponding to the first variable for the first variable in the equation. Second, I prepared to repeat this for the next variable. Third, I repeated this until all the variables had been substituted for values. In this way, I prepared to write down what was necessary to work out the equation by substituting the correct parts for the variables in the equation.

23. I prepared to move my arm in space. I did this by calculating the result. First, I calculated the results of the brackets. Second, I calculated all the additions, divisions, multiplications and subtractions in the equation in that order. Third, I repeated this until I had calculated the result. In this way, I prepared to move my arm in space by calculating the result.

24. I prepared to write the line. I did this by buying the pencil sharpener. First, I took out the money. Second, I placed it on the counter. Third, I took the change. In this way, I prepared to write the line by buying the pencil sharpener.

25. I prepared to verify that you wanted the present. I did this by putting the present in your hand. First, I took the present from the wardrobe. Second, I asked you to close your eyes. Third, I placed the present in your hands. In this way, I prepared to verify that you wanted the present by putting the present in your hand.

26. I prepared to clean the desk. I did this by emptying the shavings through the hole of the pencil sharpener. First, I placed the pencil sharpener above the bin. Second, I tipped the pencil sharpener upside down. Third, I tapped it. In this way, I prepared to clean the desk by emptying the shavings through the hole of the pencil sharpener.

27. I prepared to inspect the animal mannequin. I did this by walking Inky. First, I called Inky. Second, I placed the leash on her. Third, I walked her. In this way, I prepared to inspect the animal mannequin by walking Inky.

28. I prepared to eat the vegan delight. I did this by eating the slice of watermelon. First, I cut the slice of watermelon. Second, I lifted it to my lips. Third, I ate the coarse textured, water-saturated fruit. In this way, I prepared to eat the vegan delight by eating the slice of watermelon.

29. I prepared to make a profit. I did this by computing data science using statistics. First, I considered what I wanted. Second, I surveyed what was available. Third, I bought what I needed. In this way, I prepared to make a profit by computing data science using statistics.

30. I prepared to agree to pay a certain amount per breasoning, as part of base pay. I did this by inventing a future job. First, I employed the equality officer. Second, I employed the green officer. Third, I employed the pedagogy officer to pedagogise (sic) the whole neighbourhood. In this way, I prepared to agree to pay a certain amount per breasoning, as part of base pay by inventing a future job. First, I employed the equality officer.

31. I prepared to send the letter to the Queen. I did this by licking the stamp. First, I detached the stamp from the perforated sheet. Second, I licked it. Third, I attached it to the envelope. In this way, I prepared to send the letter to the Queen by licking the stamp.

32. I prepared to go forward. I did this by liking Samadhi. First, I drove along the highway. Second, I stopped at the side of the road. Third, I lit a campfire. In this way, I prepared to go forward by liking Samadhi.

33. I prepared to countermand the instruction. I did this by driving to work. First, I performed my morning regimen. Second, I drove to work. Third, I walked into the office. In this way, I prepared to countermand the instruction by driving to work.

34. I prepared to think of the central thought clearly. I did this by deciding whether to buy in philosophy of data science. First, I saw the product. Second, I decided to buy it. Third, I bought it. In this way, I prepared to think of the central thought clearly by deciding whether to buy in philosophy of data science.

35. I prepared to transcend (connect) positivity with a positive thought. I did this by observing that the spiritual particles (s-particles) collided, making me happy. First, I found how the representation agreed with me. Second, I signalled this by colliding s-particles. Third, I breasoned out an A to make me happy because of this. In this way, I prepared to transcend (connect) positivity with a positive thought by observing that the spiritual particles (s-particles) collided, making me happy.

36. I prepared to thank the religious leader. I did this by giving the religious leader a gift. First, I visited the shop. Second, I selected a gift. Third, I gave it to the religious leader. In this way, I prepared to thank the religious leader by giving the religious leader a gift.

37. I prepared to philosophise about music. I did this by liking God (the philosopher). First, I produced the song. Second, I paid for it to be mixed and mastered. Third, I set it for my students to examine. In this way, I prepared to philosophise about music by liking God (the philosopher).

38. I prepared to play the person. I did this by mimicking the person. First, I found videos of the person. Second, I mimicked his manner. Third, I mimicked his matter. In this way, I prepared to play the person by mimicking the person.

39. I prepared to become God (a philosopher). I did this by repeating 50*80 Upasana sutras (50*50 As). First, I repeated 80 Upasana sutras on the first day. Second, I prepared to repeat 80 Upasana sutras on the next day. Third, I repeated this for 50 days. In this way, I prepared to become God (a philosopher) by repeating 50*80 Upasana sutras (50*50 As).

40. I prepared to teach knowledge. I did this by following the meditation (philosophy) teacher. First, I followed the meditation (philosophy) teacher. Second, I listened to her knowledge. Alternatively, I read the book. In this way, I prepared to teach knowledge by following the meditation (philosophy) teacher.

41. Assuming I would be a professor, I prepared to examine my students over 2 weeks (at 2 As per day). I did this by playing tiddly winks. First, I wrote the exam. Second, I counted the breasonings written. Third, I awarded the corresponding grade to the student. In this way, Assuming I would be a professor, I prepared to examine my students over 2 weeks (at 2 As per day) by playing tiddly winks.

42. I prepared to have the same effect as a sequence of short courses on the same topic in agreeing and disagreeing. I did this by agreeing with a major as part of a degree. First, I completed the major. Second, I observed the head studied Master of Communications. Third, I observed the founder studied Master of International Business. In this way, I prepared to have the same effect as a sequence of short courses on the same topic in agreeing and disagreeing by agreeing with a major as part of a degree.

Yellow God

1. I prepared to write the algorithm for the transcript of the game Dido's gameplay. I did this by achieving the state audience level in the game Dido. First, I bought tickets. Second, I walked to my seat in the auditorium. Third, I sat down on the seat in the auditorium. In this way, I prepared to write the algorithm for the transcript of the game Dido's gameplay by achieving the state audience level in the game Dido.

2. I prepared to lecture the economics students in creative economics. I did this by opening out the rotunda. First, I identified the spindle. Second, I started pulling the ribbon from the spindle. Third, I continued doing this until I had completely pulled the ribbon. In this way, I prepared to lecture the economics students in creative economics by opening out the rotunda.

3. I prepared to go to heaven. I did this by rushing the blessings on myself. First, I said the breasonings details in a representation to a current God (see Jacqueline Publicity primary text entries 8 and 9). Second, I said the meditation details to God (see Jacqueline Publicity primary text entry 10 and Abracadabra and unabridged Abracadabra 2 song meanings). Third, I meditated on Maharishi Lucian by repeating 80 lucian mantras and 80 green sutras to give myself enough job training until that point, enabling me to go to heaven. In this way, I prepared to go to heaven by rushing the blessings on myself.

4. I prepared to write about being Maharishi. I did this by writing the essay about God in Heaven. First, I wrote about monotheism, in other words, believing in a single God. Second, I wrote about having perfect health. Third, I wrote about meditating each day to achieve this. In this way, I prepared to write about being Maharishi by writing the essay about God in Heaven.

5. I prepared to move forward in science. I did this by giving today a carrot. First, I found today's pigeonhole. Second, I found the carrot inside the pigeonhole. Third, I withdrew the carrot from the pigeonhole. In this way I prepared to move forward in science by giving today a carrot.

6. Lucianic Meditation prepared to love the world. Lucianic Meditation did this by spreading peace throughout the world. First, it made the first person happy. Second, it prepared to make the second person happy. Third, it repeated this until all the meditators were happy. In this way, Lucianic Meditation prepared to love the world by spreading peace throughout the world.

7. I prepared to mark the theology essay. I did this by thinking of a use for a computer science formula for each person, for example a person's rate of work = his or her change in concentration (number of ideas) / time. First, I wrote the first idea in a minute during the semester for the student to paraphrase. Second, I prepared to write the second idea in the second minute. Third, I repeated this until I had worked at a rate of 1 idea / 1 minute = 1 idea per minute.

8. I prepared to speak with heads of state about the world's issues. I did this by breasoning out 110 objects before counting to 50 to act as exercise for high quality thoughts (in other words, by multiplying the number of 110 object-As by 50). First, I introduced meditation to prevent poverty. Second, I introduced pedagogy to schools. Third, I introduced meditation to prevent the need for hospitals. In this way, I prepared to speak with heads of state about the world's issues by multiplying the number of As by 50.

9. I prepared to eat the communal dinner in Lucianic Meditation. I did this by drinking the strawberry sauce. First, I swallowed the strawberry sauce down my throat. Second, I enjoyed it. Third, I had spooned some more strawberry sauce. In this way, I prepared to eat the communal dinner in Lucianic Meditation by drinking the strawberry sauce.

10. I prepared for good to defeat evil, in this case, the cockatoos ate grass because there were no evil enemies. I did this by loving the large cockfest. First, I encouraged the first cockatoo. Second, I prepared to encourage the next cockatoo. Third, I repeated this until I had encouraged the 10 cockatoos in the cockfest. In this way, I prepared for good to defeat evil, in this case, the cockatoos ate grass because there were no evil enemies by loving the large cockfest.

11. I prepared for over-engineering of the bridge. I did this by hitting the ball on the string (representing over-engineering) on the stand. First, I picked up the bat. Second, I moved the bat backwards. Third, I hit the ball. In this way, I prepared for over-engineering of the bridge by hitting the ball on the string (representing over-engineering) on the stand.

12. I prepared to put through an A with a “negatable pressure cup appearance”, in other words negatably but in a way that is protected by meditation, placing a medical question on oneself (thinking of a dental drill, the medical question and a conclusion) for a child to be conceived, a job to be earned or an H1 to be supported. I did this by holding the dog model, like the pressure cup. First, I picked up the dog model. Second, I held it. Third, I placed it on the ground. In this way, I prepared to put through an A with a “negatable pressure cup appearance” by holding the dog model, like the pressure cup.

13. I prepared to be big and good by teaching Lucianic Meditation. I did this by learning Lucianic Meditation. First, I repeated the breasonings details to God (see Jacqueline Publicity primary text entries 8 and 9). Second, I said the meditation details to a God (see Jacqueline Publicity primary text entry 10 and Abracadabra and unabridged Abracadabra 2 song meanings). Third, I practiced Lucianic Meditation by saying 80 lucian mantras and 80 green sutras in my head. In this way, I prepared to be big and good by teaching Lucianic Meditation by learning Lucianic Meditation.

14. I prepared to like Maharishi. I did this by teaching Lucianic Meditation. First, I said the breasonings details in an appearance to Maharishi Lucian (see Jacqueline Publicity primary text entries 8 and 9). Second, I repeated the meditation details to Maharishi Lucian (see Jacqueline Publicity primary text entry 10 and Abracadabra and unabridged Abracadabra 2 song meanings). Third, I taught the student to meditate by repeating 80 lucian mantras and 80 green sutras. In this way, I prepared to like Maharishi by teaching Lucianic Meditation.

15. I prepared to store the bit on a subatomic particle. I did this by bringing a citrus fruit to the gathering. First, I packed the mandarin. Second, I brought it with me to the gathering. Third, I ate it. In this way, I prepared to store the bit on a subatomic particle by bringing a citrus fruit to the gathering.

16. I prepared to reintroduce my controversial argument for publishing. I did this by editing out the literature review from the PhD, leaving the critique, for publishing. First, I selected the literature review. Second, I deleted it. Third, I published the PhD. In this way, I prepared to reintroduce my controversial argument for publishing by editing out the literature review from the PhD, leaving the critique, for publishing.

17. I prepared to write an argument for the intelligent pop song for it to be examined. I did this by stating properties of disagreeing (agreeing) arguments. First, I wrote in relation to a positive idea. Second, I wrote a single argument. Third, I connected the arguments in a structure. In this way, I prepared to write an argument for the intelligent pop song for it to be examined by stating properties of disagreeing (agreeing) arguments.

18. I prepared to write magna opera. I did this by sitting and writing. First, I bought a height-adjustable chair with no arms to fit under the table and scheduled regular breaks. Second, I sat. Third, I wrote. In this way, I prepared to write magna opera by sitting and writing.

19. I prepared to eat healthily. I did this by eating while sitting. First, I ate less food and fewer units of energy. Second, I chewed it more carefully. Third, I tasted my meal. In this way, I prepared to eat healthily by eating while sitting.

20. I prepared to prevent depression. I did this by studying the medicine short course. First, I noticed the person was depressed (hadn't studied medicine). Second, I suggested that the person pay me \$50 to "put through" the Medicine As on my system to prevent depression. Third, the person agreed. In this way, I prepared to prevent depression by studying the medicine short course.

21. I prepared to maintain my happiness. I did this by stating that I was happy when I saw the bright colours. First, I saw the bright colours. Second, I was happy when I saw the bright colours. Third, I stated that I was happy when I saw the bright colours. In this way, I prepared to maintain my happiness by stating that I was happy when I saw the bright colours.

22. I prepared to study hermeneutics. I did this by writing Principias. First, I presented at the Symposium. Second, I wrote down my ideas about my presentation. Third, I opened my own Academy. In this way, I prepared to study hermeneutics by writing Principias.

23. I prepared to simplify my algorithm. I did this by writing algohedrons (sic) to verify algorithms. First, I wrote the algorithm. Second, I verified the algorithm against the self. Third, I verified the algorithm against the other. In this way, I prepared to simplify my algorithm by writing algohedrons (sic) to verify algorithms.

24. I prepared to write what they want to believe. I did this by agreeing with religious (philosophical) pluralism. First, I studied Christianity (books). Second, I studied Lucianic Meditation (Philosophy). Third, I survived blame for famousness. In this way, I prepared to write what they want to believe by agreeing with religious (philosophical) pluralism.

25. I prepared to agree by recording another text reconciling differences between philosophers. I did this by agreeing with philosophical pluralism. First, I agreed with Socrates. Second, I agreed with Plato. Third, I agreed with Aristotle. In this way, I prepared to agree by recording another text reconciling differences between philosophers by agreeing with philosophical pluralism.

25. I prepared to interpret Gail as the white character. I did this by agreeing that your creation was correct and good. First, I observed that your creation was correct. Second, I observed that your creation was good. Third, I agreed that your creation was correct and good. In this way, I prepared to interpret Gail as the white character by agreeing that your creation was correct and good.

26. I prepared to experience the spiritual subatomic computer. I did this by driving in the car. First, I boarded the car. Second, I drove in the car. Third, I disembarked from the car. In this way, I prepared to experience the spiritual subatomic computer by driving in the car.

27. I prepared to make a ship. I did this by borrowing the saw from my neighbour. First, I asked my neighbour if I could borrow his balsa wood saw. Second, I borrowed it from him. Third, I cut 1 cm from the section of balsa wood. I prepared to make a ship by borrowing the saw from my neighbour.

28. I prepared to update my writing to reflect changes in language. I did this by reading my writing. First, I verified that it was included in training materials. Second, I verified that it was included in assessment. Third, I assigned this task to the Lucian Academy Accreditation Authority. In this way, I prepared to update my writing to reflect changes in language by reading my writing.

29. I prepared to sign merchandise. I did this by observing my partner listen to my music. First, I observed my partner sit as my audience. Second, I observed to my partner listen to me sing. Third, I listened to him give me applause. In this way, I prepared to sign merchandise by observing my partner listen to my music.

30. I prepared to earn 100% at a prestigious University. I did this by lying on the lush grass. First, I looked in the shade. Second, I found a glade. Third, I lied in it. In this way, I prepared to earn 100% at a prestigious University by lying on the lush grass.

31. I prepared to examine the dynamics of the group of people. I did this by acting out the algorithm. First, I acted out the breasoned predicate name. Second, I acted out each of the breasoned arguments. Third, I acted out each of the breasoned commands the predicate called. In this way, I prepared to examine the dynamics of the group of people by acting out the algorithm.

32. I prepared to work at a fast rate. I did this by measuring the time of the cognitive processing of programming the algorithm in my mind. First, I timed lifting my finger. Second, I timed pressing the button. Third, I prepared for the next keystroke. In this way, I prepared to work at a fast rate by measuring the time of the cognitive processing of programming the algorithm in my mind.

33. I prepared to compute the number of fruits, subtracting the number of damaged fruit, only for that day. I did this by writing the small idea. First, I wrote the name of the object. Second, I wrote its breasonings (X, Y and Z dimensions). Third, I repeated this for each object in the small idea. In this way, I prepared to compute the number of fruits, subtracting the number of damaged fruit, only for that day by writing the small idea.

34. I prepared to emulate a PhD. I did this by writing the soundtrack. First, I read the script, like the literature review. Second, I wrote the song titles, like the questions. Third, I wrote the lyrics, like the hypotheses. In this way, I prepared to emulate a PhD by writing the soundtrack.

35. I prepared to write the essay plan literature review, etc. I did this by writing the breasonings for the argument. First, I wrote the student's argument plan literature review, connecting the items together. Second, planned the algorithm as an answer to the question of the argument. Third, I wrote the breasoning as a substitute for the hypothesised breasoning for the argument. In this way, I prepared to write the essay plan literature review, etc. by writing the breasonings for the argument.

36. I prepared to support the universe to support the student. I did this by becoming a writer. First, I read. Second, I wrote. Third, I wrote enough. In this way, I prepared to support the universe to support the student by becoming a writer.

37. I prepared to earn a high paying job. I did this by avoiding excess physical labour. First, I invested in all areas for myself. Second, I thought clearly. Third, I received income. In this way, I prepared to earn a high paying job by avoiding excess physical labour.

38. I prepared to study medicine before seeing the 250 breasonings as having the same quality imagery as 50 As, the standard for an area of study. I did this by completing the chapter's 250 breasonings. First, I wrote 250 breasonings. Second, I spiritually helped the students avoid looking at the breasonings in case they were distracting. Third, I set the area of study as assessment. In this way, I prepared to study medicine before seeing the 250 breasonings as having the same quality imagery as 50 As, the standard for an area of study by completing the chapter's 250 breasonings.

39. I prepared to take spiritual anti-hallucinogenic medication. I did this by stating that 250 breasonings contained high quality imagery. First, I wrote the philosophy. Second, I determined that the philosophy was expressed by a high quality image. Third, I represented this for the student. In this way, I prepared to take spiritual anti-hallucinogenic medication by stating that 250 breasonings contained high quality imagery.

40. I prepared to set 50 As as the entrance requirement for another employee. I did this by stating that 250 breasonings satisfied standards for an area of study. First, I wrote the 250 breasonings. Second, I wrote the perspective they were perfectly written as originating from. Third, I was given 50 As. In this way, I prepared to set 50 As as the entrance requirement for another employee by stating that 250 breasonings satisfied standards for an area of study.

41. I prepared to state that breasonings were a cosmological answer, in the form of computer program data, to a question. I did this by stating that the breasoner breasoned out his first breasoning. First, the breasoner breasoned out the X dimension of the breasoning. Second, the breasoner breasoned out the Y dimension of the breasoning. Third, the breasoner breasoned out the Z dimension of the breasoning. In this way, I prepared to state that breasonings were a cosmological answer, in the form of computer program data, to a question by stating that the breasoner breasoned out his first breasoning.

42. I prepared to study the music theory. I did this by being taught by the trainer of singing. First, I observed her conduct the orchestra during the overture. Second, I observed her bring in the choir. Third, I observed the choir make their entrance. In this way, I prepared to study the music theory by being taught by the trainer of singing.

Green Sutra

Seen-as argument: Medicine

1. I prepared to relax in heaven (in fact, on earth). I did this by meditating using the Green sutra (writing about Medicine). First, I meditated on the first instance of the Green sutra (Medicine breasoning for the heart). Second, I meditated on the second instance of the Green sutra (Medicine breasoning for the brain). Third, I meditated on the third instance of the Green sutra (Medicine breasoning for the lungs). In this way, I prepared to relax in heaven (in fact, on earth) by meditating using the Green sutra (writing about Medicine).

2. I prepared to teach philosophy. I did this by stating that the Green sutra (philosophy) led to pedagogy. First, I wanted to study pedagogy, where studying philosophy (Computational English) was a prerequisite of studying pedagogy. Second, I studied philosophy (Computational English). Third, I studied pedagogy. In this way, I prepared to teach philosophy by stating that the Green sutra (philosophy) led to pedagogy.

3. I prepared to write the medical knowledge in pedagogy, from trial and error in pedagogy and from meditations (philosophies). I did this by enunciating that the Green sutra (philosophy) led to medicine. First, I wrote down the medical knowledge in the philosophy. Second, I wrote the list of diagnoses. Third, I wrote the list of treatments. In this way, I prepared to write the medical knowledge in pedagogy, from trial and error in pedagogy and from meditations (philosophies) by enunciating that the Green sutra (philosophy) led to medicine.

4. I prepared to increase life to heaven (bliss) for many people. I did this by campaigning for meditation (philosophy) in politics. First, I trailed meditation (philosophy). Second, I collected the advantages of meditation (philosophy) to people's personal and professional lives. Third, I suggested that meditation (philosophy) and yoga (stretches) should be taught in schools in politics. In this way, I prepared to increase life to heaven (bliss) for many people by campaigning for meditation (philosophy) in politics.

5. ***meditation->phil I prepared to plan my day. I did this by observing the meditation teacher writing 250 breasonings on my psychology of meditation during my day. First, I wrote that the sutra character's appearance was positive. Second, I wrote that my feelings changed with my needs at various hours in the day. Third, I wrote that all my questions were answered during the day. In this way, I prepared to plan my day by observing the meditation teacher writing 250 breasonings on my psychology of meditation during my day.

6. I prepared to comment on the ontologies. I did this by watching the meditation student write a meditation major for accreditation. First, I watched him write a subject about the helper character. Second, I watched him write a subject about ontologised personal life. Third, I watched him write a subject about ontologised professional life. In this way, I prepared to comment on the ontologies by watching the meditation student write a meditation major for accreditation.

7. I prepared to be safe while I was a good leader. I did this by watching the meditation student write 50 As for accreditation. First, I observed him write a subject about dotting each person on in a main way. Second, I observed him write a subject about filling one's head and appearances from work. Third, I observed him write a subject about keeping rowdy characters occupied. In this way, I prepared to be safe while I was a good leader by watching the meditation student write 50 As for accreditation.

8. I prepared to stop the feeling of pain by stopping the assembly configuration. I did this by watching the meditation student carry the meditating relative forward in no way. First, I watched the meditation student teach her relative meditation. Second, I watched the relative meditate. Third, I determined that the relative was not dependent on the meditation student. In this way, I prepared to stop the feeling of pain by stopping the assembly configuration by watching the meditation student carry the meditating relative forward in no way.

9. I prepared to prevent a crisis in the natural cycle, by preventing unreliability in the natural object, preventing the stone from being moved into my frequented way. I did this by connecting the breasoning and rhizome to form a reason. First, I wrote the breasoning, “I connected the breasoning and rhizome to form a reason”. Second, I wrote the rhizome, “The reason contained a breasoning as an example of the rhizome”. Third, I wrote the reason as a connection between these, “The reason contained a breasoning as an example of the rhizome where I noticed the breasoning and rhizome formed a yin-yang relationship in the reason, i.e. either one could act as the reason to verify their relationship”. In this way, I prepared to prevent a crisis in the natural cycle, by preventing unreliability in the natural object, preventing the stone from being moved into my frequented way by connecting the breasoning and rhizome to form a reason.

10. I prepared to ensure the reasons in an argument were in the right place. I did this by structuring my argument in a hierarchy. First, I ordered the breasonings from largest to smallest, and placed them in a hierarchy. Second, I ordered the rhizomes the largest to smallest, and placed them in a hierarchy. Third, I matched the rhizomes with the breasonings in their positions. In this way, I prepared to ensure the reasons in an argument were in the right place by structuring my argument in a hierarchy.

11. I prepared to include ideas in different places in different ideas in the same place. I did this by connecting the different ideas in the same place with epsilon (no change in place). First, I mapped the ideas. Second, I drew translative transformations between them. Third, I brought the best radical ideas (from different places) to the same place. In this way, I prepared to include ideas in different places in different ideas in the same place by connecting the different ideas in the same place with epsilon (no change in place).

12. The meditation (philosophy) teacher prepared to verify the inference to the conclusion. The meditation (philosophy) teacher did this by preparing for the student’s conclusion by thinking of the reason for the conclusion. First, she connected the student’s possible reason to the first breasdostoning (sic) step. Second, she connected the first breasdostoning step to the second breasdostoning step. Third, she connected the second breasdostoning step to the third breasdostoning step and then the conclusion. In this way, the meditation (philosophy) teacher prepared to verify the inference to the conclusion by preparing for the student’s conclusion by thinking of the reason for the conclusion.

13. I prepared to observe companies foster life. I did this by stating that the green life was grown. First, I planted the seed. Second, I watered it. Third, I observed it grow. In this way, I prepared to observe companies foster life by stating that the green life was grown.

14. I prepared to sustain life. I did this by stating that light sustained life. First, I found the light. Second, I found the plant. Third, I found that the light sustained the plant. In this way, I prepared to sustain life by stating that light sustained life.

15. I prepared to follow the robot. I did this by observing that the green signal indicated to go. First, I observed the green signal switch on. Second, I observed the robot recognise it. Third, I observed the robot go. In this way, I prepared to follow the robot by observing that the green signal indicated to go.

16. I prepared to stop when the robot stopped. I did this by observing that the red signal indicated to stop. First, I observed the red signal switch on. Second, I observed the robot

recognise it. Third, I observed the robot stop. In this way, I prepared to stop when the robot stopped by observing that the red signal indicated to stop.

17. I prepared to research meditation (writing). I did this by meditating on God (writing about the work of a philosopher). First, I noticed my skin wasn't as tight. Second, I noticed my lips didn't crack. Third, I felt protected. In this way, I prepared to research meditation (writing) by meditating on God (writing about the work of a philosopher).

18. I prepared to prevent cell damage. I did this by taking responsibility to be safe in the sun. First, I mapped the sun exposure points on my itinerary. Second, I wrote the types of Sun Exposure Equipment (SEE) I would need at each point on my timeline. Third, I put on the SEE under the shade before each point on my timeline. In this way, I prepared to prevent cell damage by taking responsibility to be safe in the sun.

19. I prepared to be a cinematographer. I did this by photographing the clear sky. First, I pointed the pinhole camera at the sky. Second, I opened the shutter. Third, I closed the shutter. In this way, I prepared to be a cinematographer by photographing the clear sky.

20. I prepared to design the foreshore. I did this by observing the tide. First, I marked the tide at dawn. Second, I prepared to repeat this for each hour. Third, I repeated this until sunset. In this way, I prepared to design the foreshore by observing the tide.

21. I prepared to be protected. I did this by walking north. First, I walked north. Second, I observed what was there. Third, I returned. In this way, I prepared to be protected by walking north.

22. I prepared to check my house plan. I did this by devising a symmetrical house. First, I devised a diamond plan house. Second, I filled it with rooms on the left. Third, I filled it with rooms on the right. In this way, I prepared to check my house plan by devising a symmetrical house.

23. I prepared to program the spiritual computer to take care of other people by giving them a breasoning. I did this by residing in the palace. First, I built the gazebo. Second, I placed the lavender in it. Third, I placed the gel in it. In this way, I prepared to program the spiritual computer to take care of other people by giving them a breasoning by residing in the palace.

24. I prepared to master inflow and outflow in meditation (philosophy). I did this by becoming a prince. First, I intertwined the idea of becoming a prince with the first A before I wrote it. Second, I prepared to intertwine the idea of becoming a prince with the next A before I wrote it. Third, I repeated this 50 times. In this way, I prepared to master inflow and outflow in meditation (philosophy) by becoming a prince.

25. I prepared to drain water to quench my thirst. I did this by drinking water from the chalice. First, I lifted the chalice to my lips. Second, I sipped the water from the chalice. Third, I placed the chalice on the table. In this way, I prepared to drain water to quench my thirst by drinking water from the chalice.

26. I prepared to discuss group meditation with the seen-as version philosophy. I did this by attending group meditation (philosophy class) at the sandstone Lucianic Meditation (Lucianic

Philosophy) Centre. First, I explained group dynamics that I saw bottom-up. Second, I reported the group-dynamics top-down. Third, I mapped what I thought. In this way, I prepared to discuss group meditation with the seen-as version philosophy by attending group meditation (philosophy class) at the sandstone Lucianic Meditation (Lucianic Philosophy) Centre.

27. I prepared to become a healthy person. I did this by training in Lucianic Meditation (Lucianic Philosophy) at University. First, I wrote a 50-A area of study in meditation (philosophy). Second, I enrolled in Lucianic Meditation (Lucianic Philosophy) at University. Third, I recommended it to other potential students. In this way, I prepared to become a healthy person by training in Lucianic Meditation (Lucianic Philosophy) at University.

28. I prepared to move forward by processing chunks. I did this by liking the Lucianic Meditation (philosophy) meditator (philosophy student). First, I found the student's profile page on the company's internal social network. Second, I liked the student. Third, I commented that I liked the student because of his feedback that he liked himself in his self-discovery. In this way, I prepared to move forward by processing chunks by liking the Lucianic Meditation (philosophy) meditator (philosophy student).

29. I prepared to assume that the master explained the last part of the time period, not existed during it and that if the last part of the time period was represented earlier, then this was experienced with the master. I did this by loving God (the master). First, I thought that the space in the food processor was like time. Second, I thought that eternity was cut off. Third, I was ready for the last part of the time period, the last part of the time period with the master. In this way, I prepared to assume that the master explained the last part of the time period, not existed during it and that if the last part of the time period was represented earlier, then this was experienced with the master by loving God (the master).

30. I prepared to attract someone special. I did this by dancing the jitterbug. First, I looked the jitterbug up in a book. Second, I read its moves. Third, I performed its moves. In this way, I prepared to attract someone special by dancing the jitterbug.

31. I prepared to make the idea clearer. I did this by paying 5 essayists to write on my essay. First, I wrote that I would prefer for people to learn to meditate. Second, I asked what the essayists thought of my essay. Third, I considered this. In this way, I prepared to make the idea clearer by paying 5 essayists to write on my essay.

32. I prepared to offer essays in the department. I did this by paying 5 essayists to write on essays in one department. First, I paid 5 essayists to write on the first essay in the department. Second, I prepared to pay 5 essayists to write on the next essay in the department. Third, I repeated this until I had paid 5 essayists to write on all of the essays in the department. In this way, I prepared to offer essays in the department by paying 5 essayists to write on essays in one department.

33. I prepared to facilitate the University Philosophy Academy. I did this by paying 5 essayists to write on essays in each department. First, I paid 5 essayists to write on the essays in the first department. Second, I prepared to pay 5 essayists to write on the essays in the next department. Third, I repeated this until I had paid 5 essayists to write on the essays in each department. In this way, I prepared to facilitate the University Philosophy Academy by paying 5 essayists to write on essays in each department.

34. I prepared to write 150 As for an encyclopedia article. I did this by writing an encyclopedia article on all essays on the essays. First, I read the primary essays. Second, I read and understood how the essays about them related to them. Third, I summarised these essays. In this way, I prepared to write 150 As for an encyclopedia article by writing an encyclopedia article on all essays on the essays.

35. I prepared to help more people. I did this by writing articles for five encyclopedias. First, I wrote the first encyclopedia article. Second, I prepared to write the next encyclopedia article. Third, I repeated this until I had written five encyclopedia articles. In this way, I prepared to help more people by writing articles for five encyclopedias.

36. I prepared to reap the benefits of meditation (philosophy). I did this by holding on to steadfast reasonings. First, I wrote the first reason. Second, I wrote the second reason. Third, I wrote the third reason. In this way, I prepared to reap the benefits of meditation (philosophy) by holding on to steadfast reasonings.

37. I prepared to meet the head of state. I did this by shining my shoes. First, I dipped the cloth in shoe polish. Second, I wiped it on the shoe. Third, I brushed the shoe. In this way, I prepared to meet the head of state by shining my shoes.

38. I prepared to excel as a PhD student. I did this by counting bill's barnacles. First, I counted the first barnacle in the row. Second, I prepared to count the next barnacle. Third, I repeated this until I had counted the 50 barnacles. In this way, I prepared to excel as a PhD student by counting bill's barnacles.

39. I prepared to bring love into my life. I did this by observing the vein valve open. First, I observed liquid open the vein valve. Second, I observed the liquid move into the vein. Third, I noticed this repeat along the vein. In this way, I prepared to bring love into my life by observing the vein valve open.

40. I prepared to consolidate my life by writing breasoning chapters with writing essays based on them. I did this by observing the vein valve close. First, I observed the liquid in the vein segment. Second, I observed the vein valve close at one end of the vein segment. Third, I observed that the liquid didn't flow back through the valve. In this way, I prepared to consolidate my life by writing breasoning chapters with writing essays based on them by observing the vein valve close.

41. I prepared to have high quality of life. I did this by observing that I was safe. First, I walked with people. Second, I stayed inside at night. Third, I lived in a low-crime area. In this way, I prepared to have high quality of life by observing that I was safe.

42. I prepared to remain comfortable. I did this by observing that my body was safe. First, I protected my body from the sun. Second, I protected my body from the wind. Third, I protected my body from the rain. In this way, I prepared to remain comfortable by observing that my body was safe.

1. I prepared to come to a person like a card marching to a person as a breasoning in an A grade argument. I did this by coming to people. First, I wrote where the people were. Second, I wrote the route from my starting point to my destination. Third, I travelled along this route. In this way, I prepared to come to a person like a card marching to a person as a breasoning in an A grade argument by coming to people.
2. I prepared to write an intelligent argument. I did this by writing the high quality developed topic in music. First, I wrote the high quality developed topic. Second, I wrote the song title. Third, I wrote the music. In this way, I prepared to write an intelligent argument by writing the high quality developed topic in music.
3. I prepared to have fun. I did this by mimicking the other. First, I breathed the other's breath. Second, I smelt the other's fragrance. Third, I tasted the other's sweat. In this way, I prepared to have fun by mimicking the other.
4. I prepared to experience the music. I did this by writing 250 breasonings for each assessable song. First, I loved people. Second, I agreed with the gay person. Third, I agreed with his partner. In this way, I prepared to experience the music by writing 250 breasonings for each assessable song.
5. I prepared to protect myself from being sued. I did this by asking the talent to sign the talent release form. First, I hired the talent. Second, I asked the talent to sign the talent release form. Third, I asked the talent to perform. In this way, I prepared to protect myself from being sued by asking the talent to sign the talent release form.
6. I prepared to use the music agent because they were already set up. I did this by my music being played on the radio. First, I professionally produced my song. Second, I joined the music agent. Third, my song was played on the radio when I breasoned out an A. In this way, I prepared to use the music agent because they were already set up by my music being played on the radio.
7. I prepared to bracket the music. I did this by using my songs internally in my education system. First, I set the song, with elements of a grand synthesis of a department as its lyrics, as assessment. Second, I asked the students to breason out 80-250 breasonings. Third, I asked the students to paraphrase, object to, rebut to, cite and reconnect the reasons in the song's argument, which was based on an algorithm. In this way, I prepared to bracket the music by using my songs internally in my education system.
8. I prepared to have the song professionally produced. I did this by following the music producer's instructions. First, I sang the song the first time. Second, I prepared to sing the song again. Third, I repeated this until I had sung during all the takes. In this way, I prepared to have the song professionally produced by following the music producer's instructions.
9. I prepared to connect together main points from cliques. I did this by writing on something interesting to do with the song. First, I identified the topic. Second, I constructed an aphohedron from all the song's parts. Third, I thought of interconnections between clique nodes from the randomly broken down aphohedron. In this way, I prepared to connect together main points from cliques by writing on something interesting to do with the song.

10. I prepared to connect my current topic of interest in the department with the topic. I did this by being given bonus marks for writing on something interesting to do with the song. First, I wrote down something interesting apart from a cited quote from the essay. Second, I was awarded an additional 10% greater than my grade. Third, this was capped at 100%. In this way, I prepared to connect my current topic of interest in the department with the topic by being given bonus marks for writing on something interesting to do with the song.

11. I prepared to verify that it was all right outside the buildings where the public domain text was used. I did this by observing the students study the texts in the public domain (out of legal copyright). First, I couldn't be sued. Second, I stated that this previous sentence had a seen as version "I was protected". Third, I stated that if this were true, it would mean the students could write it down, as long as it made sense. In this way, I prepared to verify that it was all right outside the buildings where the public domain text was used by observing the students study the texts in the public domain (out of legal copyright).

12. I prepared to sing my case. I did this by determining the song lyrics from A or B philosophy arguments. First, I stated the main conclusion, "I felt happy". Second, I stated the reason "I ate the apple" or objection "I choked on the apple". Third, I stated the connection "I felt happy because I ate the apple" or "I felt happy, however I choked on the apple". In this way, I prepared to sing my case by determining the song lyrics from A or B philosophy arguments.

13. I prepared to escape the abductor by pulling my wrist towards her thumb. I did this by selling the song. First, I connected the objections selling the song using a reason backbone. Second, I wrote 6 of 16 breasonings per lyric selling the song. Third, I breasoned out 50 As selling the song to 4 customers. In this way, I prepared to escape the abductor by pulling my wrist towards her thumb by selling the song.

14. I prepared to install government. I did this by liking Rococo. First, I walked through the field. Second, I noticed the bees falling off me. Third, I quickly left. In this way, I prepared to install government by liking Rococo.

15. I prepared to believe that vrooming exists. I did this by liking Dada. First, I wrote to Dada. Second, I thanked him. Third, I moved on. In this way, I prepared to believe that vrooming exists by liking Dada.

16. I prepared to state that there should be more eateries in Impressionism. I did this by liking Impressionism. First, I wrote about people dining. Second, I wrote about people eating. Third, I wrote about people desiccating. In this way, I prepared to state that there should be more eateries in Impressionism by liking Impressionism.

17. I prepared to understand words by synonyms for them that were easier to understand. I did this by examining the first heavenly virtue chastity. First, I demonstrated cleanliness. Second, I demonstrated wisdom. Third, I demonstrated sincerity. In this way, I prepared to understand words by synonyms for them that were easier to understand by examining the first heavenly virtue chastity.

18. I prepared to relate metaphysics to pedagogy. I did this by examining the second heavenly virtue temperance. First, I demonstrated being social. Second, I demonstrated

fairness. Third, I demonstrated distinction. In this way, I prepared to relate metaphysics to pedagogy by examining the second heavenly virtue temperance.

19. I prepared to establish a charity fund for students who wanted to use the services of my organisation. I did this by examining the third heavenly virtue charity. First, I demonstrated determination. Second, I demonstrated bountifulness. Third, I demonstrated liberality. In this way, I prepared to establish a charity fund for students who wanted to use the services of my organisation by examining the third heavenly virtue charity.

20. I prepared to focus on the grades of the students who wrote their own arguments in the academy. I did this by examining the fourth heavenly virtue diligence. First, I demonstrated perseverance. Second, I demonstrated power. Third, I demonstrated morals. In this way, I prepared to focus on the grades of the students who wrote their own arguments in the academy by examining the fourth heavenly virtue diligence.

21. I prepared to wait for customers to arrive. I did this by examining the fifth heavenly virtue patience. First, I demonstrated compassion. Second, I demonstrated blessing. Third, I demonstrated forgiveness. In this way, I prepared to wait for customers to arrive by examining the fifth heavenly virtue patience.

22. I prepared to detail smaller ideas during and after attending the prestigious institution. I did this by examining the sixth heavenly virtue kindness. First, I demonstrated approval. Second, I demonstrated faithfulness. Third, I demonstrated the truth. In this way, I prepared to detail smaller ideas during and after attending the prestigious institution by examining the sixth heavenly virtue kindness.

23. I prepared to write the small idea's domain's end-points. I did this by examining the seventh heavenly virtue humility. First, I exhibited courage. Second, I showed reserve. Third, I effected (sic) selflessness. In this way, I prepared to write the small idea's domain's end-points by examining the seventh heavenly virtue humility.

24. I prepared to advertise Lucianic Meditation (the Lucian Academy). I did this by making a big glittering sign. First, I made the backing board. Second, I attached the single strand of tinsel to the backing board. Third, I repeated this until I had constructed the big glittering sign. In this way, I prepared to advertise Lucianic Meditation (the Lucian Academy) by making a big glittering sign.

25. I prepared to map nomenclature to evidence. I did this by writing the nomenclature (terminology). First, I determined whether the top-down argument structure place-object-subject-time should remain in-order or be reversed to be matched with a top-down phenomenon in nature. For example, I matched place-object-subject-time against an eating. Alternatively, I matched time-subject-object-place against a period. In this way, I prepared to map nomenclature to evidence by writing the nomenclature (terminology).

26. I prepared to make undeveloped things developed. I did this by verifying that the flame was burning. First, I looked at the candle. Second, I looked at its wick. Third, I verified that it was burning. In this way, I prepared to make undeveloped things developed by verifying that the flame was burning.

27. I prepared to keep the bouquet. I did this by listening to the singer. First, I sat in the audience. Second, I saw the singer walk on stage. Third, I found that I could listen to the singer. In this way, I prepared to keep the bouquet by listening to the singer.
28. I prepared to levitate for a short time. I did this by jumping in the air. First, I stood on the spot. Second, I aimed to jump 0.15 metres in the air. Third, I jumped 0.15 metres in the air. In this way, I prepared to levitate for a short time by jumping in the air.
29. I prepared to write the Lulu Iglesias song. I did this by giving the girl the prehistoric magnum opus song. First, I wrote about prehistory. Second, I wrote a magnum opus about it. Third, I wrote and gave the song about it to the girl. In this way, I prepared to write the Lulu Iglesias song by giving the girl the prehistoric magnum opus song.
30. I prepared to write the Primary School Song. I did this by giving the boy the God (master) and horse primary school song. First, I wrote about God (the master). Second, I wrote about his horse. Third, I wrote and gave a song about them to the boy. In this way, I prepared to write the Primary School Song by giving the boy the God (master) and horse primary school song.
31. I prepared to give the song I am not a Peach and medicine degree away. I did this by giving the woman the anti-depression song and anti-depression degree. First, I gave the woman the anti-depression song. Second, I gave the woman the anti-depression degree. Third, I observed her as happy. In this way, I prepared to give the song I am not a Peach and medicine degree away by giving the woman the anti-depression song and anti-depression degree.
32. I prepared to concentrate on health for peace, in addition to happiness and wisdom for necessary reasons. I did this by stating that peace reigned. First, I discovered the health degrees. Second, I discovered the famous (happiness) degrees. Third, I discovered the Ancient Greece-inspired (wisdom) degrees. In this way, I prepared to concentrate on health for peace, in addition to happiness and wisdom for necessary reasons by stating that peace reigned.
33. I prepared to ask, what is the point besides statistics? I did this by observing them experience love. First, I visited the gardens. Second, I walked to the lakeside. Third, I observed the two swans frame a heart. In this way, I prepared to ask, what is the point besides statistics by observing them experience love.
34. I prepared to get back to black to maintain the home. I did this by liking the red home. First, I ironed out mistakes from the good, found-out song. Second, I wrote n*50 sales As, finding out people for buying from the Vatican. Third, I watch the Stephanies sell it. In this way, I prepared to get back to black to maintain the home by liking the red home.
35. I prepared to write personal departmental famousness and 5 famous sales sets of 50 As. I did this by writing that blue nature is before yellow God (master). First, I wrote the areas of study. Second, I sought accreditation for an institution. Third, I waited for customers. In this way, I prepared to write personal departmental famousness and 5 famous sales sets of 50 As by writing that blue nature is before yellow God (master).

36. I prepared to model nature form around the Lucianic Meditation (Philosophy) centre. I did this by modelling nature. First, I watched the leaf fall. Second, I watched the butterfly fluttering. Third, I watched the customers come. In this way, I prepared to model nature form around the Lucianic Meditation (Philosophy) centre by modelling nature.

37. I prepared to allow for a twist in the narrative. I did this by programming the English-of-Nature Assistant Algorithm. First, I wrote the natural phenomenon down. Second, I wrote the context of this as an English story. Third, I programmed an algorithm to assist with analysing the cognitive timing of this narrative. In this way, I prepared to allow for a twist in the narrative by programming the English-of-Nature Assistant Algorithm.

38. I prepared to agree with a statement under a different condition. I did this by playing hoity-toity rhythm and roity (coits). First, I threw the coit onto the rod. Second, I claimed the rod concealed the coit. Third, I imagined Heidegger claiming the coit concealed the rod. In this way, I prepared to agree with a statement under a different condition by playing hoity-toity rhythm and roity (coits).

39. I prepared to neaten the handwriting. I did this by writing the calligraphy algorithm. First, I turned the nib on an angle. Second, I wrote the lower case a's loop. Third, I wrote the a's tail. In this way, I prepared to neaten the handwriting by writing the calligraphy algorithm.

40. I prepared to come to the home-bot. I did this by being delighted by the robot's appearance. First, I meditated (wrote) to have a stronger appearance. Second, I wrote my questions for the person I was appearing to in terms of pedagogical breasonings. Third, I wrote algorithms in terms of medicine to react to all possible answers. In this way, I prepared to come to the home-bot by being delighted by the robot's appearance.

41. I prepared to write the time code in the leaf. I did this by looking at the leaf. First, I looked at the bright screen. Second, I wore wrap-around sunglasses. Third, I recorded the pattern on the time-code leaf. In this way, I prepared to write the time code in the leaf by looking at the leaf.

42. I prepared to record the appearance of the bark. I did this by looking at the bark. First, I walked to the tree. Second, I sketched the vertical features of the bark. Third, I sketched the horizontal features of the bark. In this way, I prepared to record the appearance of the bark by looking at the bark.

Appearances

1. I prepared to emulate my hero. I did this by liking my hero. First, I chose a field. Second, I named a hero. Third, I liked her. In this way, I prepared to emulate my hero by liking my hero.

2. I prepared to pour the coffee. I did this by having fun. First, I invented the appearance. Second, I had fun. Third, I measured its effectiveness with a metric. In this way, I prepared to pour the coffee by having fun.

3. I prepared to espouse critical positivity in schools. I did this by noting that year 4 and above in primary school had 50 As per assignment, with 1 A assessable. First, I found the result of studying the undergraduate model. Second, I made each one a philosopher. Third, I made each one a philosophical playwright. In this way, I prepared to espouse critical positivity in schools by noting that year 4 and above in primary school had 50 As per assignment, with 1 A assessable.

4. I prepared to transform my breasoning chapter. I did this by paying for editing of my breasoning chapter. First, I asked for uniformity of philosophical terms. Second, I asked for explanations of their ideas in terms of other sections. Third, I asked for secondary texts drawing connections between the texts. In this way, I prepared to transform my breasoning chapter by paying for editing of my breasoning chapter.

5. I prepared to state that the algorithm lines had perspectives because they were written at first. I did this by paying for essays about my breasoning chapters to be written. First, I simulated the court's king's comments. Second, I simulated the jester's comments. Third, I simulated Maid Marrion's comments. In this way, I prepared to state that the algorithm lines had perspectives because they were written at first by paying for essays about my breasoning chapters to be written.

6. I prepared to assess the ideas, which had all been explained. I did this by observing God (the master) booming the computational marking scheme essay questions. First, I verified whether the breasoning was valid, positive and vegan. Second, I transcended paths to become God (the master). Third, I verified that the paraphrased answer was cited. In this way, I prepared to assess the ideas, which had all been explained by observing God (the master) booming the computational marking scheme essay questions.

7. I prepared to write on famous subjects. I did this by preparing to write essays. First, I collected comments from the famous subjects and their circle from the perspective of the famous university. Second, I wondered whether Proust agreed with Camus to disagree with capital punishment. Third, I confirmed that this was true. In this way, I prepared to write on famous subjects by preparing to write essays.

8. I prepared to record the answers to prevent plagiarism. I did this by observing the student answering the questions. First, I observed the student understand the topic. Second, I observed the student understand the reason. Third, I observed the student connect new parts of the reason to each other. In this way, I prepared to record the answers to prevent plagiarism by observing the student answering the questions.

9. I prepared to observe students collect their thoughts. I did this by observing the students writing a daily journal. First, I observed them write about their experiences. Second, I observed them write about their feelings. Third, I observed them write about playing with other students. In this way, I prepared to observe students collect their thoughts by observing the students writing a daily journal.

10. I prepared to observe the students lie on the ground. I did this by observing the students practise art or music in the morning. First, I observed the students breason out an argument. Second, I observed them create compositions. Third, I observed them present them. In this way, I prepared to observe the students lie on the ground by observing the students practise art or music in the morning.

11. I prepared to give the students all ideas for their assignments. I did this by observing the students and children reason out 2 As per day. First, I observed them being given 160 reasonings per day. Second, I observed them reason out the X, Y and Z dimensions of the object from each reasoning. Third, I assessed 50 As per 5 assignments per semester. In this way, I prepared to give the students all ideas for their assignments by observing the students and children reason out 2 As per day.

12. I prepared to prepare students for academia or a job. I did this by observing the students write and reason out one reasoning chapter and essay per week. First, I observed the students write the reasoning chapter by collecting 9 reasoning algorithm ideas during their morning walk, expand each of these to 6 sentences and reason them out after lunch. Second, I observed them write an essay by organising the structure of reasonings (called reasons from now on in this aphor) in one (of five) paragraphs on the first day, I observed the students organising the structure of paragraphs and their links to the side of the contention chosen on the first day, I observed the students agreeing with, objecting to, rebutting to and connecting each of the reasons from one paragraph per day. Third, I observed the teacher set the rest to finish for homework. In this way, I prepared to prepare students for academia or a job by observing the students write and reason out one reasoning chapter and essay per week.

13. I prepared to observe the students write philosophy algorithms. I did this by observing the students write reasoning algorithm ideas for 40 minutes before the first period. First, I observed them being given pedagogy training at the start of their school careers. Second, I observed them perform an undeveloped mindmap. Third, I observed them match words from the pedagogy screen with ideas from their undeveloped mindmap. In this way, I prepared to observe the students write philosophy algorithms by observing the students write reasoning algorithm ideas for 40 minutes before the first period.

14. I prepared to assign the 100-point computational speed and accuracy assignment per student. I did this by substituting languages, physical education, etc. for arts on particular days. First, I educated students in LDMG idiom (place, object, subject, time) language. Second, I allowed students to assess devised studies individually or in groups. Third, I observed students educate themselves in algorithm drama. In this way, I prepared to assign the 100-point computational speed and accuracy assignment per student by substituting languages, physical education, etc.

15. I prepared to keep the students' treasures online. I did this by observing the students plan their works at the start of year 4. First, I observe them choose and cross-multiply from the philosophy column in their journals. Second, I observed them collect from life experiences. Third, I observed them collect from areas of study. In this way, I prepared to keep the students' treasures online by observing the students plan their works at the start of year 4.

16. I prepared to observe how synthesising reasonings, reasons and rebutted criticality in relation to an algorithm formed the Lucianic Computational School. I did this by observing the students read and examine magazines and visualise the pedagogy screen to write reasonings. First, I observed the students gain ideas from the magazines. Second, I observed them write down reasonings from the screen that reminded them of these ideas. Third, I observed them synthesise the reasonings with reasons about an argument based on an algorithm empirically proving the idea. In this way, I prepared to observe how

synthesising breasonings, reasons and rebutted criticality about an algorithm formed the Lucianic Computational School by observing the students read and examine magazines and visualise the pedagogy screen to write breasonings.

17. I prepared to observe the students write on their own and other ideas. I did this by observing the students before year 4 write an essay on each of 50 essays about Computational English (all ideas), Popology, Societology and Physics. First, I wrote illustrated versions of the essays appropriate for children from these year levels. Second, I encouraged intergenre (sic) exploration of the ideas. Third, I observed them understand the robotic mind through an English lens. In this way, I prepared to observe the students write on their own and other ideas observing the students before year 4 write an essay on each of 50 essays about Computational English (all ideas), Popology, Societology and Physics.

18. I prepared to protect the students with medical background knowledge. I did this by setting meditation, medicine and pedagogy short courses before year 4. First, I observed the students practice walking meditation twice per day to kick back. Second, I observed the students prevent headaches, muscular aches, spiritual mistakes and effects of too many breasonings through nut and bolt, quantum box and prayer (algorithm) medical knowledge and use spiritual anti-hallucinogenic medication so that they use the courseware with no qualms. Third, I observed them use pedagogical knowledge to ensure academic success. In this way, I prepared to protect the students with medical background knowledge by setting meditation, medicine and pedagogy short courses before year 4.

19. I prepared to do the same for critical thinking, after attending Logic Summer School at the nation's top University. I did this by setting creative Prolog assignments. First, I assigned part-research in a 5 source-literature review. Second, I assigned questions about the required predicates. Third, I assigned hypotheses using ideas like those from the 5 (University professor), 10 (University non-professor), or 50 (non-University non-professor) 80-breasoning As each about a different program. In this way, I prepared to do the same for critical thinking by setting creative Prolog assignments.

20. I prepared to select the pedagogy school entrants. I did this by observing the students rebreason out 50 As to become a pedagogue. First, I asked teachers to write 5 (University professor), 10 (University non-professor), or 50 (non-University non-professor) 80-breasoning As per student about pedagogy. Second, I observed the future professor write 2 books. Third, I observed the successful professor applicant breason out 50 specific As to become a professor. In this way, I prepared to select the pedagogy school entrants by observing the students rebreason out 50 As to become a pedagogue.

21. I prepared to become a pedagogue by producing 250-breasoning pop songs which contain high quality imagery and which are expressed as 50 As. I did this by liking the pop star character. First, I was given 50 As in pop stardom before birth. Second, I was given 50 As in pedagogy before birth. Third, I was given 50 As in Professor, Prolog, Critical Thinking, Meditation and other developed areas of study before birth. In this way, I prepared to become a pedagogue by producing 250-breasoning pop songs which contain high quality imagery and which are expressed as 50 As by liking the pop star character.

22. I prepared to dispense with birthright myths and make 1/4 pedagogues. I did this by liking schools. First, I opened the most prestigious school in the Universe. Second, I noticed

the students were royalty. Third, I opened a pop school too. In this way, I prepared to dispense with birthright myths and make 1/4 pedagogues by liking schools.

23. I prepared to be non-invasive. I did this by verifying the contents of the vesicle apparatus. First, I breasoned out all my sets of 50 As in the sixth months prior to conception. Second, I massaged my sweaty neck to help return it to normal. Third, I helped discover scientific discoveries. In this way, I prepared to be non-invasive by verifying the contents of the vesicle apparatus.

24. I prepared to help disabled people. I did this by liking the principal. First, I determined that the principal was a pedagogue. Second, I determined that the principal was smart. Third, I determined that the principal helped me to my goals. In this way, I prepared to help disabled people by liking the principal.

25. I prepared to help you too. I did this by liking the teacher. First, I determined that the teacher gave me my thoughts. Second, I determined that the teacher helped me to my goals. Third, I worked out University turned people into teachers. In this way, I prepared to help you too by liking the teacher.

26. I prepared to help the students again. I did this by liking the teacher aides. First, I determined that they were smart. Second, I determined that they were helpful. Third, I determined that they were useful. In this way, I prepared to help the students again by liking the teacher aides.

27. I prepared to be inspired by and inspire pop. I did this by writing down a thought from the song. First, I wrote down a thought from the song. Second, I became a philosopher. Third, I was inspired by and inspired philosophy. In this way, I prepared to be inspired by and inspire pop by writing down a thought from the song.

28. I prepared to write 30 (non-Professor) or 60 (Professor) pedagogy arguments to help me to deserve high grades in Masters or PhD assignment chapters. I did this by writing 2 As per day. First, I wrote the breasoning algorithm descriptions. Second, I expanded these into a 2 As-length breasoning chapter. Third, I breasoned it out during an assignment. In this way, I prepared to write 30 (non-Professor) or 60 (Professor) pedagogy arguments to help me to deserve high grades in Masters or PhD assignment chapters by writing 2 As per day.

29. I prepared to indicate the 250 breasoning pop song inspired by the top song in Cosmology, and dotted on the area of study points to remember, to give the pedagogy student 50 specific As to become a pedagogue. I did this by writing the Breathsonings Essay Press Release. First, I waited 70 years until after the secondary text writer, the music producer and text-to-movie software writer died to include their products in my catalogue. Second, I wrote I, Lucian Green wrote the Breathsonings Essay, it was about my theory of human judgment of objects in a pedagogical sense (i.e. knowledge of it was required to deserve to earn H1), I wrote it in 2013 after taking a break from Science at Monash and discovering my famous essay format, I wrote it in the South Yarra/Toorak Stonnington Library in Melbourne, Australia, I chose the topic from meditation to help answer the question of how to earn H1 at Melbourne University and wrote it after meditating on the pedagogy ways of thinking which I used to write the breasoning chapter which the essay is based on. Third, I offered the essay to my students to grapple with. In this way, I prepared to indicate the 250 breasoning pop song inspired by the top song in Cosmology, and dotted on the area of study points to

remember, to give the pedagogy student 50 specific As to become a pedagogue by writing the Breathsonings Essay Press Release.

30. I prepared to maintain system dynamics. I did this by writing the Rebreathsonings Essay Press Release. First, I wrote the subject was a human judge of a verb. Second, I wrote the essay was written to identify non-monotonocities (exceptions) in verb judgments, e.g. go more quickly to reach the goal in time. Third, I wrote this by explaining choosing the correct judgment of verbs led to maintaining verb judgment correctness. In this way, I prepared to maintain system dynamics by writing the Rebreathsonings Essay Press Release.

31. I prepared to enter the room in the heartland. I did this by writing the Room Essay Press Release. First, I wrote that 250 breasonings expanded to 50 As. Second, I wrote that a breasoned out pop song expanded to 50 As. Third, I wrote the classical music composition contained 5 pop songs. In this way, I prepared to enter the room in the heartland by writing the Room Essay Press Release.
